

A Gateway to Culture in Slovenia / www.culture.si

Culture is big, in more ways than one. To help you navigate through the rich world of Slovene arts, culture and cultural heritage we created **Culture.si**, a portal designed for culture professionals, journalists, researchers, students, and anyone interested in Slovene culture.

Navigating is an art, especially on the web. Finding what you need is easy with **Culture.si. With the help of MediaWiki and its flexible, ever-adaptive web architecture, you can organise information in customised lists, address books, timelines, and much more.**

Reliability is key, and often hard to come by. That's why the editors at **Culture.si** hand-pick, double-check, and proof-read all content published on the site, ensuring it is referential and to-the-point. But just because we don't copy/paste, doesn't mean you shouldn't. Feel free to use the texts, images, and logos you find on **Culture.si**.

.....

People are different, that is the beauty of it all. **Culture.si** was designed to meet a wide variety of needs, and yet our users constantly surprise us by finding new ways to benefit from what we do. Because of them, **Culture.si** is getting bigger every day.
