A Gateway to Culture in Slovenia / www.culture.si

Visit **Culture.si** portal!

Make a connection!

Use the **Culture.si** portal to navigate through the rich world of arts and culture from Slovenia. And not only that, whether you're a culture professional, journalist, researcher, or just a fan, find out where it is happening around the world and explore future possibilities for collaboration with Slovene cultural organisations.

Re-use the content!

The editors hand-pick, double-check, and proof-read all content published on the site, ensuring it is referential and to-the-point. But just because we don't copy/paste, doesn't mean you shouldn't. Feel free to reuse the texts and images you find on **Culture.si**. With the help of MediaWiki and its flexible, ever-adaptive web architecture, you can retrieve information in customised lists, address books, and timelines.

Download **Culture.si** address book!

Use our free Culture.si Directory iOS App to contact over 3000 Slovene cultural producers, festivals, art groups and venues.
